

*Office Memorandum* • UNITED STATES GOVERNMENT

DATE: 28 Dec 50

TO : Mr. Kirkpatrick

FROM : 

SUBJECT:

I had a talk with Captain Knowles on NIS. He raised two problems: (1) the need to decide what production rate is required in the national security interest in the IAC and then get the personnel necessary to do the job; and (2) the problem of . On both these questions it was agreed that he would have prepared the proper staff papers on these issues and that at the appropriate time he would consult me. I told him that in view of our discussion I thought it probably unwise to make any report in the Progress Report until he had finished staff work on the problem in the area.

cc: Mr.
